## about us

The history of 'MILO' narrates a manufacturing tradition devoted to excellence. Places and materials always represent the starting point. For us traditions, customer's preferences and wishes are the finishing line. Great emphasis is placed on using world-renowned strengths in high quality craftsmanship.

# GUE

The brand is challenged by the boundaries between disciplines, while at the same time drawing inspiration from the world around us. Through our work, our team aims to construct an immersive environment filled with clues and hints in which the objects become characters in the amazing design scenes.

A unique variety of offerings, with outstanding qualitative characteristics, free of the flaws typical of traditional wood, with unlimited catalogue and bespoke solutions that always provide uniform and constant colors and sizes, replicated over time for multiple applications, on both horizontal and vertical surfaces.
